CLEANING

to a world
of solutions !

Innovative storage systems to make your kitchen functional while enhancing your day-to-day comfort

Organizing your storage space:

Taking into consideration the organization of your storage by area of activity, when planning your kitchen, provides the following advantages:

- **Time saving:** by reducing movement between the areas of activity

- **Less effort:** improved posture and easier movement due to functional accessories

- **Efficient movement:** tasks more easily carried out due to ergonomically designed storage systems

- **Increased visibility:** optimal storage of contents, visible at a glance

- **Optimal access:** the sophisticated mechanisms provide total access even in the most difficult to reach corners

PREPARATION   COOKING

Innovation

Opening systems providing a totally unobstructed view for better visibility and unequalled ease of use

Cuisio **: Innovation starts by versatility**
Cuisio is a versatile system of translucent inserts for cutlery, offering customized organization for every drawer size and type.

VALUE-ADDED FEATURES

++

- Streamline your drawer interior : the translucent finish allows you to see transparently through your drawers.

- dishwasher safe removable containers

- No limits in width : the different dividers can be combined with each other using the aluminium profile that is used to keep them together.

- If your divider does not use the total interior width, a lateral finishing profile (F) is included in each box. It can be installed on the side of the divider to give it a perfect appearance.

- The aluminum profiles used to hold your containers will impart a trendy touch to your storage space.

- Knife blocks (E) allow the configuration of the dividers for secure storage of your knives.

- Each divider comes with an attached side end gable : a practical idea for *Tandembox* drawers.

Required interior dimensions:
Height: min. 55 mm (2-11/64")
Depth: min. 473mm (18-5/8'')

| **A** 300 | **B** 400 | **C** 450 | **D** 500 | **E** Knife Block (100 & 50 mm) | **F** Side end gable must be ordered separately if your divider is at the center of your drawer (with both sides visible). If only one side of the divider is visible, you can use the side end gable included in each divider. |
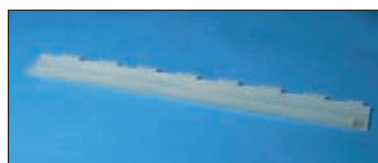

Fig.	Code	Description	Color	Min. int. width req.	Notes

F	**205811**	Side End Gable	Translucent white		Reversible (left or right)

Cuisio-Flex **is the ideal solution for deep drawer organization**

This innovative product can be adjusted in width and in depth thanks to its sides which can be extended from 236 to 386 mm (9 ¼ to 15 ¼ inches). It allows you to store a multitude of products (pots, dishes, dry food). *Cuisio-Flex* can also be used on your countertop to organize your spices or seasonings.

VALUE-ADDED FEATURES

++

- Designed for deep drawers with a minimum interior height of 128 mm (5").
- One product can expand to fit different drawer dimensions
- Elegant finish that matches harmoniously with all types of drawer interiors: the corners are light grey and the middle part is clear
- Suitable for the organization of stocks, dishes, pots, pans and other items
- Adjustable width and height from 236 to 386 mm (9 ¼'' à 15 ¼'')
- Anti-slip bumpers at the base of each insert for maximum stability.
- Sold by the set of 2 inserts in one box: very easy to order, ready to use, does not require any pre-mounting

* = can be cut to size

Reminder:
Use 2 compensation sections
#44802 / 44802150 for *Tandembox*
type drawers.

Use the compensation shims
#448012 / 448012150 to adjust the
width and depth

Useful tip!
Use the non-slip mats (transparent for
wooden drawers, grey for metallic drawers)
to hold all the stored items in place and to
protect the bottom of the drawer.

Code	Description	Dimensions
47110150100	Grey non-slip mat, cut to size	1100 x 1500 mm (43 5/16" x 59 1/16")
4711015011	Transparent non-slip mat, cut to size	1100 x 1500 mm (43 5/16" x 59 1/16")

Modular System of
Modulo Deep Drawers
Universal Wooden Dividers

Useful tip! The *Modulo* system for deep drawers allows you to store your boxes of rice, pasta, your casserole dishes, plates, pots and pans, etc. The principle is simple: order the perforated bottom, cut to size, and use the pegs and dividers to customize your own space.
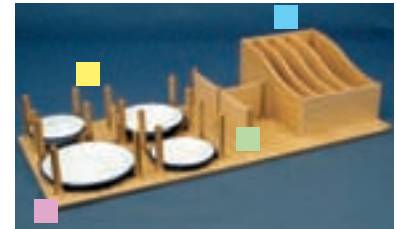

- Pegs
- Pan storage

3-basket version

Organizing your storage has never been so simple. A sliding frame attached to the lower part of the cabinet supports the easily removable baskets. This not only provides total access but also makes your products easy to reach.

VALUE-ADDED FEATURES

++

- mounted on the lower part of the cabinet
- full extension = total access
- baskets are easily removed
- wire baskets with plastic bottom that is resistant to standard cleaning products
- ideal for cleaning products as well as bottles of water, oil and vinegar
- comes with dividers to separate the basket into compartments
- equipped with a shock-absorbing mechanism for a soft closing

The upper basket tilts to one side or the other for easy access.

No More Chaos in the Under-Sink Cabinet!

The under-sink cabinet is certainly the one you open most often.

Before...

Products pile up, visibility is reduced, access is difficult.

After!

With the clever products offered by Richelieu, this cabinet will become functional and very practical.

Wastebin opening at the same time as the door, sliding baskets for your cleaning products, sliding towel rack, each object is in its place and is easily available.

At last, an area under control!

A well-equipped under-sink cabinet will make life much easier for you and will optimize the functionality of your kitchen.

A multitude of solutions are offered to you for the storage of your trays, cleaning cloths, towels, cleaning products and wastebin.

Do not forget to consult the headings **Wastebin / Waste Management** as well as **Lower Cabinets** in which you will find numerous products offering storage solutions for your under-sink cabinet.

Aventos HS

Aventos HK

Aventos HK-S

Opening Systems
Aluminium doors are a perfect match with the use of cutting-edge hardware. Their clean lines and their innovative and sophisticated mechanisms create ultra-modern environments.
All systems on this page can be installed on aluminium-frame doors. The choice of attachments permits the use of wide or narrow profiles.

VALUE-ADDED FEATURES

++

- **Aventos HF**
  Provides effortless opening and smooth, silent closing for folding doors. The mechanism is designed for bi-fold doors. The quiet and highly accurate operation reveals its exceptional quality.
- **Aventos HL**
  The door opens parallel with the cabinet front, providing total clearance for easy access. Blumotion device integrated for silent, effortless closing.
- **Aventos HS**
  The door swings up and over, reducing the risk of obstruction with the crown molding on the top of the cabinet. Ideal for upper cabinets with large fronts of 24" and up.
- **Aventos HK and HK-S**
  Mechanism for lift-up doors. Opening angle up to 107° for complete visibility. Available in two versions: HK and HK-S (recommended for upper cabinets of reduced height, for example: cabinets above refrigerators and pantries)
- **5010522G Mechanism**
  This mechanism is designed for upward- or downward-opening motion, depending on the type of installation.

5010522G Mechanism

A Lift

VALUE-ADDED FEATURES

++

- *Lift* retractable door ideal to store products that sometimes you wish to display
- no forward projection, for access without having to go around the door
- for use in areas where space is limited

For products marked with *, consider ordering hinges in order to have a complete system

Opening system for drawer: even with your hands full, simple pressure with your foot allows you to open the drawer. Ideal for storing heavy and cumbersome products.
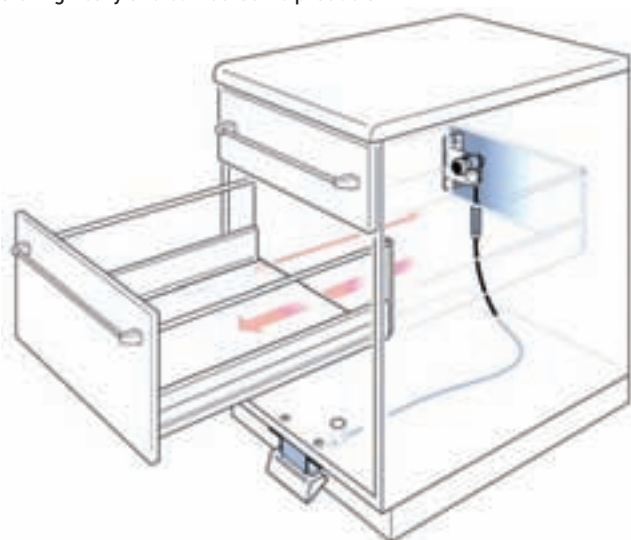

VALUE-ADDED FEATURES

++
- operates with a magnetic system
- can be installed on all types of drawers with a metallic back
- cannot be used for drawers with the *Softstopp* system

Code	Description	Color
3697106	Automatic opening mechanism for drawer	Alu grey

VALUE-ADDED FEATURES

++
- the *Pegaso* system opens doors parallel to the front of the cabinet for maximum access
- ideal for narrow kitchens where there is little space for opening
- soft closing
- considerably increase your storage capacity!

Perfect for corner cabinets

A Mechanism

B Connection bar

C Joiner for large doors

D Kit for aluminum door frame

For a complete system, order:
- one mechanism per door (according to the width of the door you are using)
- one connection bar per door (bar may be recut to the desired size and should be 76 mm less than the interior height of the cabinet)
- optional: for large doors or two doors (one above the other), also order the joiner **6064J**. The joiner is inserted on the fixing bar and fastened to the door. This provides three anchor areas for better stability and prevents the door from warping
- optional: for a 20 mm aluminum frame door, also order the hardware kit **6064ALU** for an easy installation

	Code	Description	Dimensions
A	**60450164**	Opening mechanism	Door width: 450 mm (17 3/4")
	60620164	Opening mechanism	Door width: 620 mm (24 7/16")
B	**6025769010**	Connection bar	2500 mm (can be cut to desired size)
C	**6064J**	Joiner for large doors	
D	**6064ALU**	Kit for 20 mm aluminum door frame	

ENVIRONMENT RECYCLING SORTING

Before...

Help protect the environment while making your life easier!

Recycling and waste management are a major challenge for our future and that of our children. With the wastebins and recycling centers offered by Richelieu you will contribute!

Each type of waste is in its place. The recycling centers will greatly facilitate your life. Whether it is for your glass containers, cardboard or metal packaging, old newspapers… our products are ergonomic while optimizing space.

And don't forget, each modern kitchen should have a wastebin for the management of organic waste and a recycling center to sort glass, metal, cardboard and plastic.

After!

MAXI: the largest capacity on the market for a round wastebin.

VALUE-ADDED FEATURES **A**

++

- ideal for an under-sink cabinet
- 30 l capacity
- contour to be clipped onto the bin keeping the plastic bag solidly in place
- reversible (right or left), can be easily installed with an available interior width of 415 mm (16 3/8")

A 30 l **2433530**

B 5 l **350530**
- ideal for vanities
- total access when opening

C 5 l **208030**

D 18 l **341830**
- large capacity for limited installation depth
- ideal to install in front of the pipes
- total access when opening

Design wastebins: can be used everywhere at home.

Useful tip: the **640230** and **640530** wastebins can be used as a recycling center when attached to sliding shelves.

E 16 l **6360170**

F Available in 2 heights
640230 and **640530**

One2Four

The simplest system for integrating waste management into your deep drawers.
The easiest solution on the market!

VALUE-ADDED FEATURES

++

- Ideal for all type of deep drawers (melamine, wood or metal), for kitchen or bathroom application
- Cut the anti-slip mat to the interior drawer dimensions, select the type of bin based on the available space, give the final touch with the functional lid available for each bin
- The anti-slip mat features small pegs to keep the bins in place
- Each bin has handles for easy removal
- Easy to clean
- Bins are available in different heights and capacity
- Bins can be used with or without individual lids; they can be used as recycle bins, but also as storage bins (animal food, cleaning material, dishwashing products, etc.)

For a complete system, order:

- 1 anti-slip mat #5181100 (to be cut to the interior drawer dimensions)
- The number of bins according to your drawer dimensions and to your storage needs
- 1 individual lid for each bin according to your needs

One2Five : streamline your cabinets' interior!

One2Five is a system of suspended recycling bins that fits into a double wall metal drawer (*Tandembox* type). You can create your own bin configuration (in a wide range of sizes and capacities) and customize your recycling center to suit your sorting needs.
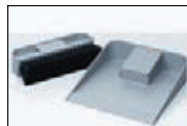

VALUE-ADDED FEATURES

++

- Contemporary kitchens feature more and more drawers, and *One2Five* perfectly reflects this trend, because it installs into the same type of drawer sides that you will use for your standard bins.
- Build your configuration with two sides and back of the drawer. Don't use the drawer bottom. Hang the appropriate frame to the drawer side panels, attach it to the door, install your choice of bins, and you're done.
- The large lid included with the frame covers the whole width of the cabinet, preventing the spread of odors while providing extra storage space for recycled paper.
- Individual covers for each bin (order separately) are ideal for composting. Ideal for reducing undesirable odors coming from the sorted waste in the bin. The 8-litre bin is perfect for managing your compost; a separate lid is recommended for this application. *One2Top* covered solutions are designed to provide even more storage and functionality (see p. 63).
- Each bin has handles for easy removal.
- Download our suggested bin configurations at www.richelieu.com.

5003100

5002100   5004100   5006100

Installation :

Designed for metric dimensions cabinets:
- *Exterior cabinet width: 600 mm*
- *Drawer side length: 500 mm*
- *Drawer side min. height: 85 mm*
- *Drawer type: Tandembox and similar systems*
- *Required interior height:*
- *Height of uppermost bin, if not using the full-width inner lid*
- *Height of uppermost bin + 25 mm if using the full-width inner lid*

Because the system does not allow for adjustments, it is important to follow exactly the installation dimensions and to order the correct frame, depending on the thickness of your cabinet side panels.

Corner cabinets are often the least organized; Richelieu provides you with a multitude of solutions: sliding systems, swiveling trays… All in a wide choice of colors and materials!

Make Your Life Easier!

Before...

- **your products are piled up on the bottom of the cabinet**
- **access is difficult: you have to bend down to look for your products**
- **no clear view of the products which often means wasting time**

After!

- **your products are organized in an optimal manner and you maximize your storage space: great ergonomics!**
- **whatever system you choose, the maximum space available is used, you will get an overall and immediate view of the products: no more waste of time or useless searching**
- **your products come to you - not the other way around**
- **all the systems are designed to make their use most enjoyable**

Le Mans System
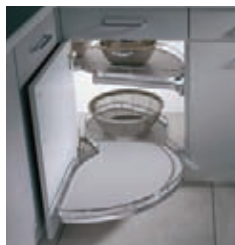

Right-hand opening

++

VALUE-ADDED FEATURES

- open the door and you can pull out each tray independently
- height-adjustable trays
- tray with a non-slip grey or maple melamine surface and a chrome railing
- trays designed to maximize space and to increase storage surface

For a complete system:

1 pole (depending on the available interior height)
1 set of 2 trays (according to available interior dimensions and the desired opening direction)
or 2 sets * of 2 trays (according to available interior dimensions and the desired opening direction)

Pole:

Code	Description	Interior height available
6927140	Adjustable pole, chrome	from 600 to 750 mm (23 5/8″ to 29 1/2″)
6928140	Adjustable pole, chrome	from 720 to 900 mm (28 3/8″ to 35 1/2″)
6931140*	Post for mid-height cabinets	1250 mm (49 1/8″)

Set of 2 trays:

Door width: 450 mm (17 3/4″)
Interior width: min. 862 mm (33 15/16″)
Interior depth: min. 500 mm (19 11/16″)

6923140100	Set of 2 trays	Grey/chrome	Left
6923140150	Set of 2 trays	Maple/chrome	Left

Magic Corner: Your storage space pulls out from the cabinet for total and very ergonomic access.

No tool is required for the adjustment and the mounting of the frame. The door is mounted with an easy clip-on system guaranteeing better frontal stability.

C **6107140**
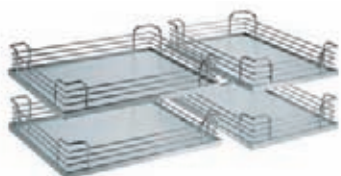

D **6107140100**

VALUE-ADDED FEATURES

++

- when you pull out the door, the four-basket system slides completely forward and out, giving you complete access
- great choice of baskets:
  – chrome wire baskets providing elegance and transparency
  – *Arena* baskets in grey or maple melamine with a non-slip surface and a chrome railing
- reduced assembly time
- no tool is required for the assembly of the frame and the adjustment of the door
- enhanced door stability
- optimization of the extension motion
- the system is already pre-assembled allowing for an easy installation in less time
- optional *SoftStopp* dampening device for soft closing

Optional but essential: the Softstopp shock absorbing mechanism 016211100 allows for a soft closing.

E **016211100**

Now available with a new sliding frame system and an enhanced closing mechanism.

Richelieu
richelieu.com

*Multiply your storage levels
for a corner cabinet!*

VALUE-ADDED FEATURES

++
- modular in terms of the height of drawers used
- facilitates storage in corners
- interior storage accessories are available

To order, consult the general catalogue

Pro-Arc: a new generation of Lazy Susans

Pro-Arc is an innovative range of systems for corner cabinets. This range consists of two choices of shelves: round and three-quarter round.

Each shelf is designed to provide maximum storage space and includes a built-in rim that prevents containers from falling out. The shelves also feature a non-slip surface for maximum stability.

The system is very easy to install and requires a minimum of parts to be mounted. Each set includes 2 shelves, 1 pole and mounting hardware.

VALUE-ADDED FEATURES

++

- Ergonomic design: the shelves are designed to provide maximum storage space
- Each shelf has a non-slip surface for maximum stability
- Structural webbing underneath the shelf for lightness and improved stiffness. Each shelf can accommodate 20 kg (44 lb)
- Easy installation that requires minimal mounting parts
- Easy to order: Each set includes 2 shelves, 1 pole and mounting hardware
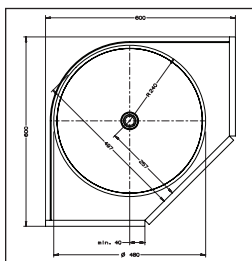

9758100
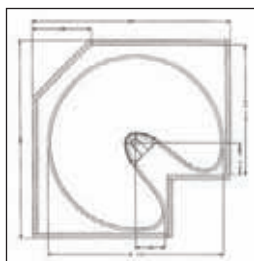

9766100
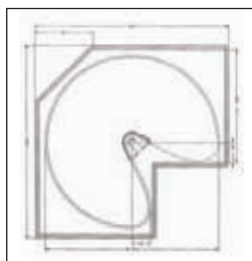

9776100

Code	Description	Diameter
9758100	1 set: 2 *Pro-Arc* grey round shelves, 1 pole and mounting hardware	480 mm (18 7/8")
9766100	1 set: 2 *Pro-Arc* grey 3/4 round shelves, 1 pole and mounting hardware	710 mm (28")
9776100	1 set: 2 *Pro-Arc* grey 3/4 round shelves, 1 pole and mounting hardware	810 mm (31 7/8")

Power Slide with **Pro-Arc** shelves: innovation comes from within
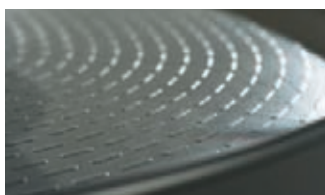

Power Slide is the latest innovation in corner cabinet systems. A perfect balance between design and functionality, this system consists of two uniquely-designed shelves that slide individually.

The trays are equipped with full-extension slides. The system is mounted centrally. The straight movement provides full access and makes the system suitable for installation close to a drawer or a dishwasher. The shelves slide without ever hitting the sides of the drawer or the dishwasher door.

VALUE-ADDED FEATURES

++

- Full-extension slides: total access to the inside of the cabinet
- Ergonomic design to maximize storage space. The built-in rim provides better stability
- Sliding movement: adjacent cabinets with *Pro-Arc* shelves remain fully accessible as the shelves slide parallel to the drawer
- Centrally mounted means less restrictions on space, suitable for cabinets with or without a frame. The mechanism remains discreetly invisible
- Each shelf is easy to assemble and clean, and can be easily removed and reinstalled without any tools
- Each shelf slides individually, enhancing usage ergonomics
- The shelf structure is light and provides high load capacity (up to 25 kg per shelf — 55 lb)
- Anti-slip material on each shelf surface

Required interior dimensions:
Width: min. 856 mm (33-11/16˝)
Depth: min. 480 mm (18-7/8˝)
*Height:* min. 665 mm (26-3/16˝)
Opening width: min. 400 mm (15-3/4˝)

VALUE-ADDED FEATURES

++

- all the trays are made of highly resistant polymer
- independently pivoting trays for easy access to stored items
- no more cleaning tasks: with the material used, no more encrusted dirt
- adjustable pole adapts to all types of cabinets

- the one-tray versions are available with fastening hardware and can be easily attached to an existing cabinet shelf
- resistant nylon brake holds the tray in place once the movement stops

Classic, the pivoting trays in white wire represent reliable value when organizing your corner cabinets!

Work surfaces designed for pros!

Our countertops and kitchen island tops (superior quality assembly) are made of real maple. Easy maintenance whether varnished or oiled.

VALUE-ADDED FEATURES

++

- solid laminated maple
- assembled without staples: no surprises when cutting the counter to your specifications
- laminated with full-length pieces
- oiled: oil penetrates fibres and protects the wood
- effective in prevention of bacteria deposits
- thickness: 38 mm (1 1/2")
- other dimensions available on request
- non-reversible
- also available in cherry, walnut and oak on special request

Maple countertop

Code	Description	(L x D x H)		Finish
2511224	Maple countertop	610 x 635 x 38 mm	(24" x 25" x 1 1/2")	Oiled
2511230	Maple countertop	762 x 635 x 38 mm	(30" x 25" x 1 1/2")	Oiled
2511236	Maple countertop	915 x 635 x 38 mm	(36" x 25" x 1 1/2")	Oiled
2511248	Maple countertop	1220 x 635 x 38 mm	(48" x 25" x 1 1/2")	Oiled
2511297	Maple countertop	2464 x 635 x 38 mm	(97" x 25" x 1 1/2")	Oiled

001512 : Protective oil. Regular maintenance (every 4-6 weeks) is recommended.

00166 : Varnish for counter. Seals and protects the wood.

001212: Natural cream protection for wood countertops. Deeply penetrating, locks the moisture in and prevents against drying, bleaching and cracking.

VALUE-ADDED FEATURES

++

Signature Series Wall Mounted Range Hood

**Your kitchen will never look the same!**
Opt for a wooden hood to add a distinctive look to your kitchen! Available in straight or arched versions, our hoods allow for optimal ventilation insuring high blowing capacity and low noise level.

A 10536150
38 3/8" (975 mm) Arched hood - maple
(Chimney not included)

A 10036150
38 3/8" (975 mm) Straight hood - maple
(Chimney not included)

B CH213631150
Chimney (optional)

C 20500170
Power module 500 CFM
Stainless steel

D 90359100
Ductless kit
(optional)

E 90372002
Charcoal filter (optional)

It is recommended to replace your charcoal filter once a month

VALUE-ADDED FEATURES

++

Hoods:
- two models: arched and straight for 38 3/8" (975 mm) width
- wall-mounted model designed for easy installation equipped with a patent pending hanging mechanism
- warm maple finish
- made of a combination of plywood and resistant solid wood
- **silver grey metallic hood liner included**
- **complete turnkey range hood solution: hood and liner in one package**
- also available in 30", 42" and 48" (762, 1067 and 1219 mm) upon special request
- other wood species are available on special order: red oak, hickory, cherry and alder
- 31" (787 mm) chimney that can be cut to size

Ventilation:
- high capacity: 500 CFM / 8.2 sones
- UL, CUL and HVI certified
- 3 speed level adjustment thanks to push buttons for more efficiency and comfort
- elegant stainless steel finish
- two 20W halogen light bulbs to illuminate your cooking surface (incuded)
- for external ventilation use the ductless kit **90359100**
- heat sentry detects excessive heat and adjusts speed automatically
- quiet centrifugal blower
- comes with 2 aluminum filters
